If an athlete is awarded a medal incorrectly, at a Provincial Games/Championships, that athlete shall return their medal to the Games Organizing Committee. This decision shall be made in consultation with the Head Coach, prior to any action being taken.

Special Olympics Manitoba, and the Games Organizing Committee, will award all athletes within that event with the correct medal.

If an incorrect medal placement is not discovered until the Games are over, and the athlete has returned home, the athlete may keep the medal. Special Olympics Manitoba, and the Games Organizing Committee, will then award the athlete(s) with the correct medal.

POINT VERIFICATION:

If an athlete is awarded a medal on site in error (i.e. the athlete should have received the gold medal yet the athlete was awarded the silver medal) and this was later corrected on the results sheets, in consultation Head Coach, the point calculation (used in selecting athletes) will reflect the actual placement and not the medal that was awarded incorrectly.
